

BYOD integer lesson:

Integer Review

Anything you do not finish in class will be homework!!!!!!

A. Watch each of the short videos and take notes in your notebook of the examples the instructor reviews. 2 Videos= 2 sets of notes☺

Video 1 [Click here for Video 1](#) (4:31)

Video 2 [Click her for Video 2](#) (4:35)

B. Go to the following website to practice integer operations:

[Click here for Study Stackers website](#)

You may do the flashcards or any of the other games at the **bottom of the page**.

C. On **study stack** website, Please take the **quiz** at the bottom of the page. You will write down all of the questions and answer them in your notebook. (1-20) Please check your answers online and **record your score at the top of your page**. This will be homework if you do not finish in class. On problems 11-20, the answer is given first, you find the matching problem to the answer.

D. You can also practice with the online textbook, [Big Ideas Math](#). To take an online practice quiz and you can check your answers [Click here](#)

E. Extra practice: This is optional, but great practice for you!!!!
