

LESSON **Practice B**
1-2 Mean, Median, Mode, and Range

Find the range, mean, median, and mode of each data set.

1. 46, 36, 23, 37, 29, 53, 42

2. 72, 56, 47, 69, 75, 48, 56, 57

3. **Daily High Temperatures**

Day	Sun	Mon	Tue	Wed	Thu	Fri	Sat
Temperature (°F)	45	48	42	47	49	46	45

4. **Complete Baseball Games Thrown by Pitchers, as of July 2001**

Name	Saberhagen	Brown	Maddux	Clemens	Johnson
Number of Games	76	72	102	116	78

Identify the outlier in each data set. Then determine how the outlier affects the mean, median, and mode of the data.

5. 14, 16, 13, 15, 5, 16, 12

6. 48, 46, 52, 92, 57, 58, 52, 61, 56

Use the table. Are there any outliers in the data? How does the outlier affect the mean, median, and mode of the World Series data?

7. **World Series Wins**

Team	Cardinals	Dodgers	Athletics	Yankees
World Series Wins	9	6	9	26
